January 12, 2017

Every year the Oakes Public School District, in cooperation with the North Dakota Department of Public Instruction, publishes an annual progress report on student achievement called, The School District Profile. This profile is now available for your review. We encourage you to access and study this important information. This report demonstrates the progress our students are making in terms of our challenging academic standards.

You may access the School District Profile for the Oakes School District on the Department of Public Instruction's website at the following address: <https://www.nd.gov/dpi/report/Profile/> . Simply select the Oakes School District and the most recent year to access the various reports available.

The annual School District Profile summarizes how well our students in reading/English language arts and mathematics on the North Dakota State Assessment and on other academic indicators. The Profile also provides our student attendance rates and graduation rates. The profile reviews the achievement of all students and of specific subgroups of students. Additionally, the Profile compares our student results to those of the state of ND.

The School District Profile for the Oakes School District is an important summary of how well our students are progressing in their basic academic skills. I encourage all parents and patrons to familiarize themselves with this information. Providing a quality education for our students is everyone's concern. In order for us to improve, we must have an understanding of how well our students are performing. We should all take pride in the support we collectively provide our students in their pursuit of academic excellence.
